

Valencia County Public Works Division

2026 Road Inventory

Preface

The purpose of the Valencia County Road Inventory is to document those roadway facilities within Valencia County that are maintained by the County. This year's inventory includes mileage summaries, specific listings of each street maintained by the County and a map book that illustrates the location and surface type of these roadways. This information was generated utilizing Valencia County's Geographic Information System (GIS) and a series of base coverages which are updated regularly by various agencies in the region. While every effort has been made to insure that the information included in this document is correct, Valencia County cannot be held responsible for errors associated with base data utilized to generate this product.

Questions or comments related to this material may be directed to the:

Valencia County Public Works Division.
PO Box 1119 / 444 Luna Ave
