RE: Annual Fire Safety Inspections for Valencia County Business Owners

Dear Business Owner,

Valencia County Ordinance number 2013-01; which adopts the 2006 International Fire Code with local amendments requires for all businesses to obtain a Fire Safety Inspection from the Valencia County Fire Department. This permit will be issued upon approval of your annual fire and life safety inspection; which is conducted by the Fire Prevention Bureau. The Fire Safety Inspection is an addition to any other permits your business may be required to have to operate, i.e. cutting and welding, dispensing of fuel.

The purpose of the annual fire safety inspection is to provide the Valencia County Fire Department with current business owner contact information, identify the operations or processes being conducted at your business, and to ensure that your business meets the minimum fire and life safety requirements of the Valencia County Fire Code. The goal is to minimize potential damage and loss of revenue to your business through quick contact with your business representative in the event of an emergency, and to reduce potential hazards that could cause a fire. Identifying current operations at your facility also allows fire personnel the ability to respond with the appropriate resources to minimize damage caused by fire or other catastrophic events

If you have any questions or concerns regarding this matter, please contact the Valencia County Fire Assistant Chief of Operations at (505) 866-8746.

Sincerely,

Casey Davis,
Assistant Chief of Operations
Inspector/Investigator
Valencia County Fire Department
